hahah nope, but the fake Smashing Pumpkins MySpace page has an AOL screen name as "starsong." I'm sure it's fake as they had to remove the link they had up smashingpumpkins.com.

Has the pumpkin queen handle all of the site stuff(animations, flashes, galleries), and Billy (aka Murder McMurderson) posts and listens to the fans while he isn't recording.

McMurderson: Ummm... I'm not a musician...

Nice cover.

Yes, because he was like  
"Hey Jimmy, i only am doing this so I can buy oil to rub on my head, how about you record the rest of the album and i'll just sit around and take credit for it, like we did for Siamese Dream!"

Who is to say I am not Billy Corgan. I am so inconspicuous I pretend I am from Canada and don't put Act IV on the SP

If anything I'd have to say Netphorian is Butch Vig. He doesn't like TFE because Billy used a one-guitar-approach  
instead of the wall of guitars he helped create.
