McMurderson, I also want to know something. When I log in it says I have 1 message, but when I click to see what it is, there's nothing there. Also, how do you make a poll question?

Re: STICKY: Profiles

Posted by Murder McMurderson - 2006/11/30 05:53

The message that you're missing was spam that has been deleted. To make a Poll click on "New Poll"

I can't update my avatar anymore and now I'm stuck with this stupid spur-of-the-moment cartoon panda :(

Why won't it let me change anymore?

Note:

The image is a GIF and is lower than 100kb, it is 5.88kb, I've also tried to upload a JPEG of the same image but it has a background so I don't really want to use it which is also lower than 100 kb (23.4).

What are the dimensions?

Re: STICKY: Profiles *Update*

Posted by Felix - 2006/12/12 14:56

100 x 100 but it's uploaded now.

EDIT:

Although now it seems to have had a black background put into it, when it should have no background, why is this? =s

Sorry for the confusion.

This is probably a dumb question, and of minor importance, but...

How do you change the clock? (I'm assuming the standard is Pacific Time) :confused

Would it be possible to maybe remove the "error, posted in last 30 seconds" thing, its rather irritating when you go back to repost only to find your message has been lost, or at least have a way of the site to remember your post so you can post again
