## Today (Piano Version)

I remember I had a version of "Today" played live on piano. I can't find it anymore. Does anyone have any good quality live performances of this?

Do you mean the Storytellers version, because that has a beautiful piano accompaniment

Sorry Teej, this is not the one I'm talking about, although this is really cool, thanks. Is there any way I can download the Storytellers Version?

There's a piano version of Today on the There Is No God bootleg, but i'm not sure if it's the one you're talking about. The whole concert (not just the songs from the boot) are here:

I've got 2000-02-19b with just Billy on piano singing Today.

This is the most interesting and amazing concert ever. Jimmy didnt turn up so the first set is just Billy solo on piano.

Live once and only Once In A While and Le Deux Machina. Acoustic The Everlasting Gaze, James singing Be Strong Now, piano only Blue Skies Bring Tears...

:eek :eek :eek :eek :eek
