## A tribute video I made of live performances

Hey everyone!!

just like many others before me, I edited a video and put it on youtube. I made a compilation of various live performances from the pumpkins, set to the sound of "age of innocence". You can comment here or on youtube. If you have any tips or comments on my editing work, please tell me, I would love to learn how to be a better editor.

thanks a lot and may Zeitgeist rock our worlds,

Jeroen

That was really beautiful! Those were some great clips... Videos like that used to make me cry before the whole reunion thing... :P  
Great job!

thanks guys :)

I used around 16 clips for the video, including a Conan O'brien show, the David Letterman performance, the live show on the MTV awards, performances in Paris, Brussels, Rio, Los Angeles, and some other performances of which I don't really know where they were shot.

There's a certain symbolism to the clip... first one to find it gets a free Billy :billy

and yes, Murder, I'd like it if the video would be on the site! I'll upload it right now! :D
