Yeah stoners are pretty friendly and fun to hang out with. And i love feeling depressed as well, I've found a difference between depression and sadness, and look at it more positively. But as much fun as it is to listen to them alone its always fun to mock the passion in tonite tonite with my girlfriend.

im sure someone can! but really im not too fussed about the two of them. just thik of it as how Queens of the stone age have always been. two prominant members and two erm not so prominent members. yes its true that josh homme has somewhat better taste than billy does nowadays, mark lanegan, dave grohl etc etc, but look at it this way, i mean i thought linda strawberry was in bad taste when i saw billy for tfe but shes sorta grown on me a little since then, but ginger, well now shes just a super tacky strawberry, i mean shes repulsive, like a send up, like even worse jerry blank in strangers with candy, i mean she just a joke! ANYHOO

so basically my point is, enjoy them while they last cos billys sidekicks are just going to keep getting worse!

(as a side, its not like theyre playing on the album...Jimmy chamberlin- drums Billy Corgan- all the rest. BC:JC!!!!!!!!!!!! (my keyboard unfortuatly doesnt have a lightning bolt :confused))
