Proibly talking about the one from the metro, but the only one i could find cuts out at 25 minutes, their recorder must have run out of batteries/tape.

According to SPLRA, the longest Silverfuck was 2/4/97. I remember downloading a 40 minute Silverfuck from RSPAA, but I don't see it anymore.

I've got a 40min Silverfuck at 64kbps. Even at this shit quality it's 18.5mb, so it's too big for me to email it. I'm pretty sure I got it from rspaa a couple of years ago but I don't see it there now. Tell me an easy way and I'll let you have it because, as yet, I don't know how to yousendit etc. It's dated 04-02-1997 like McMurderson says.

Good Lord!!!! I didn't believe it until I heard it!! The sound quality isn't that great, but I just turned it way up... the bass is shaking my floor, haha.
Thank you for this song!!!!!!!
Wow... Did Billy have rage that night or what? I've never heard him sound so... angry!! Almost to a scary level... THIS is dark.

For all who haven't downloaded this yet... do it.

I can't stand the quality on this one.

The early shows in 1996 have the same version of Silverfuck, but they're much shorter. Here are some good ones.

2/6/96 which is around 13 minutes

<http://rspaa.niluje.net/data/Live/1996-02-06%20San%20Francisco%20CA/>

2/10/96 which is around 20 minutes

I can upload this one if anyone wants it.

If the quality isn't horrible, then I'd love that 20 minute version! Thank you, PistolPete!

Quality is excellent for a AUD recording.

The early 96 shows are some of my favorites. The version of Rocket is simply amazing.

I can up the entire show if needed. First set is mostly acoustic, and second is electric.

I work on getting Silverfuck up and if you like the quality, I'll try for the rest.
