Thanks so much Obscured, your tabs are always fantastic, in fact I registered here just to thank you hehe. The only thing I would suggest is that live Billy plays the intro riff up around the 12th fret, other than that its spot on. Good work!

Awesome. Obscured, you are a great guitar hacker. I was just using your Porcelina tabs a while ago. Looking forward to play this song next.

By the way, I know this is a lot to ask, but is there anyway you could tab out "Why am I so Tired" from Earphoria? I would very much appreciate it.
