
Normal, IL sold out already. Any others sold out yet?

I got 2 tickets for the Normal, IL show this morning as soon as the tickets went on pre-sale. Later on in the day I tried my password again to see what seats were left and found out that only balcony seating remained. Now, just a few minutes ago, I tried again to see what seats were left and the Ticketmaster website said that it couldn't find any available seats. So it would seem that the Normal, IL show is sold out already. That is unless they are holding tickets to sell when the regular sale date starts on Saturday.

So my question is, are tickets sold out in any other cities yet?

I got two tickets for the Mezzanine section. Not exactly my cup of tea, but I'll see them in Chicago too.
