
"keep it" mellon collie demo mp3?

Posted by satellites20 - 2007/08/06 16:46

is this song available in any format??

any information on this would be great. billy's explanation of the song sounds cool.

I've never heard of that song, and I don't see it listed anywhere. Where did you hear about this?

<http://www.netphoria.org/recording/recording.htm>

If you search the page for "keep it" it's in there.

Keep It is rumored to be an unreleased song, or at least evolved into another song.

Couldnt it just be a working title for anouther song? that seems to have happened alot, just looking at the demos from

mellon collie, the songs had different titles.
