
MCIS good quality demos

To StArSeEd, or any of the other music editing geniuses on here - following the awesomely professionally restored versions of Adore II demos, do you think someone could do a good job with restoring the MCIS era demos, specifically Autumn Nocturne, Wishing You Were, So Very Sad About Us and Methusela? I'm sure someone with a bit of know how can make them sound at least slightly better!

thir13en has done a remaster on them, which is what we currently use here.

You can compare the difference, to hear if you like it better:

Flac files of MCIS demos can be found by accessing The Hub.

Sad Peter Pan is on iTunes, so we can't share it here, but it was on a CD called "Sweet Relief II".

On the hub I can only find the demos as shn-files :(, .flac is much better! Winamp won't always play shn (and I have the codec), sometimes it plays and sometimes it doesn't. If somebody know where I can find them in flac, I would really like to know about it :)
