These videos are starting to surface, so I thought I'd put them here. I'm sure a torrent for audio/video will be up shortly.

Set:

01 - That's the Way (acoustic)

02 - The Rose March

03 - Lips Like Sugar

Wow, Jeff was kicking ass on that song. Are there any more videos of this concert out yet? And are any of the Virgin Festival shows going to be played live over the internet?

Hello everyone! I've uploaded the entire show in mp3 format! Enjoy! Minor fading at beginning and ends of tracks for "flowage" sake.

The file is only labeled as the third track, but it is actually the entire show. Enjoy!

Thanks for posting. You have any additional info on the recording? What's the source, transfer etc?

I found the high quality video on an Ozphoria forum, and then ripped the audio, editing it with Audacity.

Ozphorian member Anahedonia recorded it and there are screen shots here: MTV The Lair

DVD Torrent: <http://www.thetradersden.org/forums/showthread.php?p=842958#post842958>

Audio 16 bit: <http://www.archive.org/details/tsp2008-03-28.flac16>

Audio 24 bit: <http://www.archive.org/details/tsp2008-03-28.flac24>

The 16 bit audio has MP3's.

This was the greatest experience of the whole Australian tour, this is how close I was:
