
Help With FLAC

Posted by GlassZero - 2008/05/06 23:51

I downloaded a few concerts but it won't let me open them because they're FLAC files and the sources couldn't be found or something. Can somebody help me with this? I'd greatly appreciate it.

Google "switch" and click I'm feeling lucky.

It's the best and simplest converter I've ever come across, bar NONE.

on a list of top ten converters ever, this should be number one.

It is seriously that good.
