is it a cover or an original song?

Ah, I see, I thought it was a bootleg from a concert.

Dan, if you're desperate, I can give you a link to a website that you can download a whole suite of converting programs, one among them is a YouTube to mp3/mp4 format.

I'm in frickin' love with it.

You're not going to find high quality audio of this song in full. I think I have one of the audience recordings. Let me find it.

Does anyone know why this show is not allowed to be traded on the Hub? This is what you're not allowed to share:
Billy Corgan 2004-04-19 - It may never come out commercially but that doesn't mean you can share it
Hideout 2 - it's MP3 sourced so don't share it
Ultra Rare Trax
Gish Rough Mixes
I never understood why the BC show is not allowed.
