i recently saw Speed Racer and i was wondering what everyone else thought of it.

ive heard alot of bad reviews for it but i thought it was amazing. i thought the visual effects and editing were great and even though most the storyline and acting was blah, the overall psychedelichness of it all was fantastic. my favorite kids movie so far.

I thought it was complete shit, ergo I loved it.
I think it was made to be horrible, and that's why it was so great.
It was overly corny, which made it fantabulous.
And so very fake.
Great movie, I'd watch it again.

It was so so bad, and it never ended. It just kept going on, and on, and on, and on, and on, and on.....

.....You get the point...
