## What do you own?

Posted by Geek N.Z. - 2008/06/01 03:58

Here you can show off how many SP albums you actually own. Not burned, downloaded doesn't count even if it was iTunes or MACHINA II. I'm talking about real, hard albums here. Any format.

EDIT: forgot to mention, put in any SP related side-projects too, if you have any.

Sort by official and unofficial (to your knowledge)

### OFFICIAL:

Gish  
Lull  
Peel Sessions  
Siamese Dream  
Earpthoria (2002 re-release, as far as I am aware)  
Pisces Iscariot  
MCIS  
TAFH  
TEITBITE (not quite yet, it's on TradeMe. I WILL win it!)  
Adore  
Machina  
Still Becoming Apart  
Rotten Apples/Judas O  
Mary Star of the Sea (Zwan)  
TheFutureEmbrace (BC)  
Zeitgeist (Red normal version)  
American Gothic

All of those are CD.

### UNOFFICIAL:

None :( Although I might get Sunshine of Your Love if I see it on TradeMe again...

## Re:What do you own?

Posted by Geek N.Z. - 2008/06/01 17:02

PistolPete has just about everything EXCEPT MACHINA III!!

What the fuck is the point of having the clean SD as well as the explicit? (if you could call it that. Why didn't they have a clean MCIS or Earphoria? He swears much more often on that.. )

---

## Re:What do you own?

Posted by PistolPete - 2008/06/01 17:20

I have far from everything, and nothing of real value ;)  
IMO doomsday clock having a numbered MCIS vinyl and Machina II beats anything I have.

The "clean" Siamese Dream doesn't have the track listing on the back of the cd. And if I remember correctly it has a four page foldout booklet, rather than the standard booklet.

---

## Re:What do you own?

Posted by Geek N.Z. - 2008/06/01 19:21

---

Oh, nice, could you scan/upload so I can have a look-see?

Well, I suppose vinyl MCIS does beat TAFH in value, I mean what self-respecting Pumpkins head doesn't have TAFH?

Also, I would say the only official MACHINA II is any one of the 25 vinyls. Although I hear that most of the good bootlegs of them were mostly only given away as competitions and what-not, so whoever won it would NOT want to give it away..

## Re:What do you own?

Posted by Trillian - 2008/06/02 15:29

I'm not going to bother with the standard fare. I've got every album and a lot of the singles, as well as an exorbitant amount of bootleg interviews.

Some of the more unique things:

\*a cassette promo for Heavy Metal Machine

\*Lull on cassette

\*a tiny SP flag from the Zeitgeist era

\*Tab books for Adore, MCIS, "ultimate" Smashing Pumpkins

\*3 SP, 1 Zwan shirt (down from a total of about 15 shirts at my fandom peak! Oy vey.)

OK, I just realized how unremarkable that all is, haha.

good luck finding a real machina II. i think one was going to sell once for \$10,000 to some guy in France, but then they cancelled the sell. you better start saving now. lol  
as for the age thing, i'm only 21- so still pretty sad, but not as bad as being 17 and having all of this. ;)

I have the Siamese Dream 7" singles box set and the Starchildren 7" on white vinyl and a Zwan mobile (not a car but the kind that has little pieces that hang and twirl on string when you hang them from the ceiling).

I don't know what else, the coffee hasn't kicked in yet and I'm not at home to paw at my precious collectibles, so memory is failing me.

Although Taste You was cool, it kind of reminded me of my girlfriends songs, very chordal.

I got it for \$5 too! In minty condition. Like 13 years ago in a used record store in Chicago. They were sort of "over" the Pumpkins because they had become "popular" and weren't "cool" anymore, so they didn't seem to think the single was anything special.

Actually at one point I had 2 white ones but I traded one of them for something or other Pumpkins-related. Probably some bootlegs, knowing me.

Pistol Pete, the Siamese Dream singles are regular black vinyl. They have pretty picture sleeves though and they come in a pretty purple box with gold writing.

Hey all, been doing some searching on a Pumpkins CD I own and ran across this thread. Hope you don't mind me registering and posting.

The CD is labeled "Spaceboy" and has a picture of a goofy kid's face on it, but from the playlist it appears to be Disc 2 of "The Aeroplane Flies Underground" set...

CD 2:  
Rocket  
Cherub Rock  
Rhinoceros  
Today  
Spaceboy  
Siva  
Dancing in the Moonlight  
Disarm  
Suffer  
Rocket  
Quiet  
Today  
Disarm  
Bury Me  
Hummer

Disc 2:  
Tracks 1-9: 1993/06/29 - Studio 105; Paris, FR - soundboard, acoustic  
Tracks 10-15: 1993/09/15 - Manchester Academy; Manchester, UK - soundboard, electric

[http://www.spfc.org/songs-releases/boot.html?boot\\_id=130&boot\\_display=1|0|](http://www.spfc.org/songs-releases/boot.html?boot_id=130&boot_display=1|0|)

I picked it up on an art trip I took in college. It was in Florence, Italy at some small record shop right next to the Duomo. I plan on taking some scans of the album because originally that's all I was looking for. If any would like me to post more info about it I'd be glad to.

Thanks,  
brian

Update:  
I found the "Spaceboy" CD on the spfc.org and it appears to be the exact same disc as CD 2 of "The Aeroplane Flies Underground". Is the "Underground" box set simply a collection of BBC Radio One broadcasts?

Spaceboy

<http://www.spfreaks.com/Default.aspx?page=COLLDETAILS&item=1300>

interesting question. they don't have "The Aeroplane Flies Underground" on spfreaks yet, but they have Spaceboy.

if you look at this

Spaceboy:

Tracks 1-9: 1993/06/29 - Studio 105; Paris, FR - FM Broadcast; Acoustic

Tracks 10-15: 1993/09/15 - Manchester Academy; Manchester, UK - FM Broadcast; Electric

Originally broadcast live in the UK in BBC Radio One.

Tracks 1-9 mislabeled as 1993/09/15.

Disc 2, TAFU (i don't feel like typing it)

Tracks 1-9: 1993/06/29 - Studio 105; Paris, FR - soundboard, acoustic

Tracks 10-15: 1993/09/15 - Manchester Academy; Manchester, UK - soundboard, electric

it is the same audio. that happens sometimes with boots.

it doesn't say whether the rest are from the radio, but i doubt its all BBC radio 1 broadcasts from rest of the info on the recordings on the other discs.

you should ask at spfreaks though. who knows, maybe one of them has it. and i don't think anybody minds you registering. :)

some of the singles and stuff are really neat.

definitely. when i was a pumpkins neophyte and began collecting, i omitted anything that didnt have new songs. however, i saw the today single in a store one glorious day and i just fell in love with the cover. i then decided that their artwork and the "look" and "feel" of the singles and promos i didnt have were reason alone for me to collect these pieces of smashing pumpkins. so i guess thanks goes out to d'arcy's sisters for helping me to continue to collect

I'm genuinely envious of you guys! Here in Wales, shops just don't sell anything by Smashing Pumpkins. Here is my mediocre collection:

---

CD's  
Gish  
Siamese (explicit)  
Mellon Collie and the Infinite Sadness  
Adore  
MACHINA I  
Zeitgeist (Green)  
Pisces Iscariot  
Rotten Apples plus Judas 0  
Cherub Rock  
1979 (includes all corresponding b-sides)  
Thirty-Three (b-sides: The last Song, The Aeroplane Flies High, Transformer)  
Zero EP  
Tonight Tonight (b-sides: Meladorie Magpie, Rotten Apples, Medellia of the Gray Skies)  
Tarantula  
Life Begins Again  
TheFutureEmbrace  
Earphoria

Oh and I managed to obtain a 7inch copy of Ava Adore the other week too.....

I'm extremely jealous too, I think everyone with extensive singles/vinyl memorabilia have been long time fans and collect as they come out.

Could be. Unfortunately I was a bit young to buy anything myself or even remember the Pumpkins back then so now I have to depend on Second hand shops and amazon-esque websites to obtain any discontinued/vinyl stuff.

yeah. it isnt easy lol. actually the first thing i bought was mellon collie (in 1995). then i bought all of the older stuff. (which at that point wasnt too awful much). then i would just get things as they were released. I have bought some things from ebay (like Light into Dark and a couple of my vinyls) and have just gotten lucky walking into a shop and finding one

album by the pumpkins in vinyl. slcd.com is one place i have gotten a few things from. they carry promos and a few singles and a couple of vinyls. and not just for sp but from any band.
