Anyone know where I can get this? I mean, torrent wise? I think it was a three disc thing... and I've found a few torrents, but they're either dead or they died soon after I started them.

Thanks :billy

You don't really need to download it as torrents, you can get the tracks here, here and here.

I don't really know about torrents, I've found them to be very unreliable. If you want the tracks, then there they are.

Didn't realise they were that readily available, that's why I went straight for the 2rentz...
