# Your favourite songs EVER!

Try and see how big you can make your list.

Try and see if you can get it without any Pumpkins (or Pumpkins-related).

Try and see if you can make it in order and numbered, in order of your favourite songs EVER.

In this list, scatter various Radiohead songs throughout the list from The Bends to In Rainbows. And "You" and "Stop Whispering" from Pablo Honey.

Geek - I definitely agree that "Plug In Baby" is Muse's best! But, really, no "Pablo Honey" except "You"? "Stop Whispering" is probably my favorite Radiohead song ever! And no Pumpkins?! BLASPHEMY! Hehe.

Melabonbon - relatively good choices, but ... Hanson? Oy vey.

As for my list, there's no way I can number these babies without the Pumpkins in there. So ...

Moulin Rouge soundtrack, "Come What May"  
MGMT, "Time to Pretend"  
Weezer, SO MANY TO LOVE but mostly "The Good Life," "Pink Triangle" and "The Greatest Man That Ever Lived"  
Straylight Run, "Buttoned Down"  
Oasis, "Don't Look Back in Anger"  
The Beatles, "Hello Goodbye" and "In My Life"  
My Chemical Romance, "Famous Last Words"  
Veruca Salt, "With David Bowie" and "Loneliness is Worse"  
Liz Phair, "Fuck and Run"

Crapsicles, I can't think of anymore right now.

Trillian - "Where's the Love" is an excellently crafted, catchy pop tune. And Taylor's voice is always divine and intense and beautiful. I'm not sure how much Hanson you've actually heard, if your opinion is just based on "Mmmboop"?

(Which I also contend is quite a catchy little tune with a nice little message to it, but they've come a long way since then as they've continued to grow and develop as musicians and songwriters in the past 11 years.)

---

They're one of my favorites. Awesome live. Even our Billy was spotted at a show at the House of Blues here in Chicago some years ago :D

My most played song in iTunes and definitely one of my favourites is Bleeder by Hot Water Music. It was originally by Alkaline Trio, but the Hot Water Music version is so much more powerful. I defy anyone on here to listen to it and not like it! ;)

you know, i've been really into the band Brand New lately. I was gonna make a list but then realised that pretty much every song from there first two CDs would be on there.

You guys should really give them a listen.

Your favorite Weapon is a really good punk album while Deja Entendu is more alternative and unique and amazing.

They've got great background vocals as well.

And Dan, Down by the River is an awesome song ;)

No Pumpkins people!!!

Jeez, we can talk about that any other time we like, we already know that we all share a love of them!

"Just" - The Bends  
"Paranoid Android" and "No Surprises" - OK Computer  
"The National Anthem", "Optimistic" and "Idioteque" - Kid A  
"Pyramid Song" and "Life in a Glass House" - Amnesiac  
"Go to Sleep. (Little Man being Erased.)" - Hail to the Thief

O no, those bitches are vile. Agreed. And they feel \*entitled\* to be as unpleasant as they want to be, to other fans and the band.

What is your sister's name? I'm just curious if a good friend of mine, who used to follow Hanson around on tour for years with a few other girls, would know her. Just to see how small the world really is.

## Re:Your favourite songs EVER!

It makes them feel that the other person is inferior to them.

Otherwise, they just can't stand how they go on about whatever it is that they love when the person listening hates it.

Yeah, that's my problem too. If I listed all the songs I think are amazing I'd be listing hundreds... maybe thousands...

iTunes tells me I have almost 14,000 songs (some live stuff etc in that, but even so it's a lot to choose from), so even if I only thought 1% were amazing that would be 140...

This kind of ties in with what I said in another thread. There are a huge amount of really awesome songs. Really
